

Get support with your Community Buildings Retrofit project

As a recipient of funding for the Community Building Retrofit (CBR) initiative, you are eligible to participate in the CBR Advisory Service – a free GMF offer unique to this program.

How the Community Buildings Retrofit Advisory Service can help you achieve your goals

You can receive free **capacity development** support tailored to your community's needs by participating in our simple 3-step process:

1

Complete our rapid needs assessment to determine how we can best support you;

2

Use the results of your needs assessment to create a capacity building plan; and

3

Access expert coaches, courses, tools and templates.

Available to approved projects in all CBR funding streams:

monitoring and analysis grants, recommissioning grants, GHG reduction pathway feasibility studies, and GHG impact/reduction pathway retrofit capital projects.

Maximize the potential of your CBR project

Achieve long-term energy savings

Help meet your targeted energy savings with support tailored to your buildings.

Enhance social benefits

Boost the benefits your CBR project can bring to your community.

Build staff capacity

Ensure your team is up to speed on the latest best practices through partner-led training programs.

Learn from other communities

Access guides, templates, case studies and more to apply their lessons in your project.

Meet our expert coaches

Have conversations with our team of regional CBR experts to troubleshoot and find solutions.

Share lessons learned

Get support to create meaningful content, participate in regional workshops and more.

Explore the types of support available to your community

Completing a successful CBR project extends beyond the technical, and we're here to support you in a range of ways. Reach out to your GMF Project Officer today to find out how the CBR Advisory Service can support you!
